

## **NCLB Data Report**

The NCLB Data Report shows results for state accountability tests in reading, mathematics and science.

### **Section I : Percent Tested and Counts by Achievement Level**

Section I of the report includes participation information by subject and grade based on MCA -II results and the accommodated tests including MTELL for mathematics and MTAS for reading, mathematics and science. For Math and Reading, the 'Percent Tested' is based on students enrolled during the AYP window (the first two weeks of the MCA Math and Reading assessments). For Science, the 'Percent Tested' is based on students enrolled during the first three weeks of the MCA-II Science assessment. Since not all students in grades 9-12 are expected to take the Science test, the percent for grade HS is adjusted based on the number of tests administered by the school. For students to be considered as testing, a matching assessment must be found (for example, students who were absent are not counted as 'testing').

Section I also shows the number of students enrolled at the school who had valid scores used in the AYP proficiency measurement broken out by achievement level. These numbers will differ slightly from those shown in Analyze Your Results which reflects scores from students who tested at the school regardless of enrollment status.

### **Section II : List of AYP Status for all eligible schools in District**

For districts reports, Section II lists the schools within the district and their associated AYP measurements. The schools' AYP Status, the In Need of Improvement Status, and the In Need of Improvement Implementation are shown.

### **Section III : AYP Targets and Measures**

Section III of the report shows the detailed numbers by subgroup for each of the four AYP measures: Participation, Proficiency, Attendance and Graduation . The established targets and rates for each measure and subgroup are shown with the designation of Above (A) or Below (B).
