

Minnesota Approved Reading Methods Programs for applicants who completed out-of-state licensure programs

If your initial Minnesota teaching license has a renewal condition stating that you must complete one or more “reading courses,” please see below for approved coursework. Successful completion of an approved reading program (which may require more than one course) will meet the specific requirement for licensure renewal.

Submit a transcript listing successful completion of this course with your licensure renewal application.

Please contact the institution directly for class enrollment details including schedule, credits, cost, etc.
