

MARSS Timelines Submissions/Turn-around Reports End-Of-Year FY 2015

The following table specifies when MARSS files will be edited, used to produce turn-around/ statewide reports, and what other uses will be made of the data. The first date in each block is the date that districts who report through a Regional Management Information Center (RMIC) must have their files to the RMIC so the RMIC can meet the Minnesota Department of Education's (MDE) deadline. The second date in each block is the date by which district-wide files are due at MDE. However, there is no need to wait for a deadline to submit files; they will be accepted any time (prior to the final deadline). The data will automatically be used for the next submission cycle's turn-around edits and reports. Data files can be submitted any time beginning January 12, 2015 for assessment precode files.

A district/charter school need not resubmit data every reporting deadline if it has no errors or omissions to correct. Each submission must be district-wide (all schools' data). **One submission completely replaces the prior submission.** Records containing errors will not generate a student count, or revenue, for the district/charter school.

Reporting Deadline All Dates in 2015	What's Due	Comments/ Data Used For	Statewide Reports ¹
MARSS WES Opens Monday, January 12		Through August 2015, a district's most recent submission will be provided to the testing vendors to update student enrollment and eligibility information for assessments and reporting.	None
