

MDE Using Data Series

The Minnesota Department of Education will be conducting a series of webinars throughout the year focused on using data for planning, school improvement, evaluation, and other reporting needs required by state statute. All districts and schools are encouraged to join the webinars to build their capacity to more effectively use data for decision making and improvement.

The first five webinars in the series are scheduled to begin Tuesday, October 16, and continue every 2 weeks through December 11. The webinar topic will be presented from 2:30-3:30 p.m. on the dates indicated. Presenters will be available to answer questions after the presentation.

Date	Time	Topic
October 16	2:30-3:30 pm	Effectively Using School Improvement Assessment Reports: Find All Available Data
October 30	2:30-3:30 pm	Understanding MMR: Where Is MMR Detail Information
November 13	2:30-3:30 pm	Understanding MMR: Relationship Between MMR and AYP Results Summary
November 27	2:30-3:30 pm	How Does AIR OLPA Data Link to State Proficiency Data for Predicting End-of-Year Performance?
December 11	2:30-3:30 pm	Are You Collecting and Linking Needed Data For School Improvement, Program Evaluation and Future Planning?
